Sub: Approval of Proposal to allow Individual Agriculture connection for lifting water from River/Creek

Ref: 1. EPD Letter No-GUVNL/ 2015/4502/K1 dated 06.04.2016  
2. GUVNL Proposal No-GUVNL/Tech/Sam/Lift Irrigation/374 dated 19.02.2016

Respected Sir,

The State Government has approved the proposal for fixing the norms for allowing Agriculture connection to Individual farmer for lifting surface water i.e from River/Creek as per the letter shown at Sr.No.1 (copy enclosed). The norms are as under.

1. The purpose of such connection shall be for lifting of water for Irrigation purpose only from river/creek as a water source considering the availability and feasibility of lifting the water through this connection.
2. The grant of Individual connection may only be considered in cases where lifting of water is for irrigation purpose from river/creek which is flowing into the sea and is wasted.
3. Permission shall be sought from the Chief Engineer Irrigation Department /SSNNL/GWRDC (as the case maybe) for lifting the running water from River draining off to the Sea for minimum period of two years.
4. All the stipulated norms/rules of Normal/Tatkal scheme will also be applicable in respect of Agricultural connection for lift irrigation to be released under Normal or Tatkal scheme as the case may be.
5. The applicant's land should be adjacent to the river/ creek and there should be no Agriculture land of other farmers in between the creek and the applicant's land. Applicant can lift the water directly from the river and irrigate his land
